

## Acquisition of a new energy battery cabinet factory

Why did Lyten acquire a battery company? Lyten's acquisition represents a pattern where struggling European battery initiatives become acquisition targets rather than independent competitors, following years of challenges in matching Asian manufacturers' cost efficiency and production scale. Is Lithium Werks a part of reliance new energy? Mr. Joe Fisher, Co-Founder and CEO of Lithium Werks, said "We are pleased to become a part of the Reliance New Energy initiative. Why is Bess the fastest growing segment of the battery market? BESS is the fastest growing segment of the battery market, as the technology is critical to meet AI data center power demand, provide resiliency to the electricity grid in Europe and North America, and meet surging power demand in emerging markets. How big is the lithium-ion battery market? The global lithium-ion battery market is projected to grow from \$115.89 billion in to \$499.31 billion by , representing enormous opportunity but also intensifying competition 5. Is Northvolt a threat to Europe's battery industry? Northvolt's bankruptcy represents a significant blow to Europe's ambitions in the battery sector, creating a vacuum that American company Lyten is now filling. Lyten will take full ownership of Northvolt Dwa ESS, Europe's largest energy storage systems manufacturing operation, located in Gdansk, Poland.
