

Bahrain single glass solar curtain wall custom made

What are aluminum curtain walls?The aluminum systems are not only easy to transport but also straightforward to manufacture. Curtain walls --also known as glass façades and exterior glazing systems --convert previously unused spaces into energy assets, enhancing both aesthetics and functionality. What is photovoltaic curtain wall?Photovoltaic Curtain Wall generates energy in the building implementing solar control by filtering effect, avoiding infrared and UV irradiation to the interior. What is a curtain wall?Curtain wall is a term used to describe a building facade which does not carry any dead load from the building other than its own dead load, and one which transfers the horizontal loads (wind loads) that are incident upon it. These loads are transferred to the main building structure through connections at floors or columns of the building.
