Can Bolivia become a global powerhouse in electric micro-mobility? MOBI CEO Ariel Revollo: "Latin America has the capacity to become a global powerhouse in electric micro-mobility, and we believe Bolivia can be the leader of this transition. Can Bolivia become a green energy superpower? The partnership between MOBI and EnergyX highlights the thriving innovation environment in Bolivia, and will take the country one step closer to becoming a green energy superpower. What is Mobi & energy exploration technologies (energyx) doing in ? SANTA CRUZ, April 20, - Bolivian urban eco-mobility and clean energy startup MOBI has partnered with American lithium and battery company Energy Exploration Technologies Inc. (EnergyX). Both companies will work towards creating a Bolivian domestic lithium battery supply chain to develop the region's electric mobility market. Where is energyx based? EnergyX is currently building its Innovation Labs in Austin, Texas, and is actively scaling up its operations after a successful that saw them raise \$20 million in funding and deploy their first LiTASTM direct lithium extraction plants to Bolivia's Salar de Uyuni.
