

## China Telecom Base Station

As of the end of September, China's telecommunications mobile phone base stations numbered 12.64 million and support a massive Internet user base of nearly 1.1 billion people with an Internet penetration rate of 78.0%. China builds world's largest 5G network with 4.7 million base stations. China had about 4.71 million 5G base stations by the end of September, amid its efforts to strengthen its cyber infrastructure. Over the last five years, China has built the China 5G base station count continues. China Unicom deputy GM Hao Liqian said its 5G base station total includes 1.4 million in the 3.4GHz band, which it shares with China Telecom, and 800,000 low-band. Ambitious 5G base station plan for China aims to build over 4.5 million 5G base stations next year and give more policy as well as financial support to foster industries that can define the next decade, the country's China's Tree-Shaped 5G Towers Ensure Seamless Connectivity. Like a scene straight out of a spy movie, where the next base station could take any form, and you'd never see it coming. Unbeknownst to many, these camouflaged base stations play a China home to 3.92 million 5G base stations. Xinhua BEIJING, July 23 (Xinhua) -- The number of 5G base stations in China had risen to nearly 3.92 million by the end of June, data from the Ministry of Industry and Information Technology. China to construct over 4.5 million 5G base stations. China plans to construct over 4.5 million 5G base stations in while introducing additional policy and financial incentives to support industries expected to shape the next decade, the country's Ministry of Low-carbon upgrading to China's communications base stations. These outcomes demonstrate that upgrading to low-carbon base stations not only ensures economic feasibility but also delivers significant environmental and public health. Shanghai Leads China for Outdoor 5G Base Under to the 14th five-year plan set in, Shanghai aims to construct and operate 70,000 5G base stations by the end of next year and increase fixed broadband access speeds to 500 megabits per second. China home to 4.1 million 5G base stations. The number of 5G base stations in China now exceeds 4.1 million, data from the Ministry of Industry and Information Technology showed Friday in a 5G rush - 4.5m 5G base stations, 300 5G-A cities, 75 Mobile operators in China are ramping up 5G and 5G-A rollouts, with the former now at 4.5 million cell sites and the latter in 300 cities.
