

## Domestic Hydrogen Energy Sites

---

Hydrogen Resource Data, Tools, and Maps This hydrogen data estimates the potential for producing hydrogen from onshore wind, solar photovoltaic, and biomass energy by county for the United States. The zipped shapefile data set is designed to be used in The Hydrogen Hubs Selection Sets Off the Dawn of U.S. The much-awaited announcement of first round of winners for the Regional Clean Hydrogen Hubs (H2Hubs) came on October 13, . The H2Hubs are part of a \$8 billion Hydrogen hubs are key to domestic energy production and The hydrogen hubs program intends to demonstrate localized production and end use of hydrogen and to create a connected synergistic hydrogen economy across the U.S. Regional Clean Hydrogen Hubs The Regional Clean Hydrogen Hubs (H2Hubs) Program invests in hydrogen hubs across America to create a national network of hydrogen producers, consumers, and connective infrastructure while supporting the production, Biden's hydrogen hubs will get \$7 billion: California, Houston, President Joe Biden and Secretary of the U.S. Department of Energy Jennifer Granholm will on Friday announce seven regional "hydrogen hubs" which are, collectively, Annual Energy Outlook Fact Sheet: Hydrogen Market We have introduced a new Hydrogen Market Module (HMM) to represent the domestic hydrogen market in the Annual Energy Outlook (AEO2025). California launches world-leading Hydrogen Hub California submitted an application in April of through the Alliance for Renewable Clean Hydrogen Energy Systems (ARCHES), a statewide public-private Hydrogen hubs are key to domestic energy production and Hydrogen hubs are key to domestic energy production and regional economies across the US. Hydrogen hubs are intended to test, develop, and demonstrate technologies CATF U.S. Hydrogen Hubs Map This interactive map identifies stakeholders and regions that have responded to the DOE funding notice for its Regional Clean Hydrogen Hubs program. Learn more by clicking on the states or the listed hub efforts. Hydrogen Projects in the US Clean Energy Group's Hydrogen Projects in the US Mapping Tool allows users to access basic project information, end uses, and emissions for 136 hydrogen production projects across the Hydrogen Resource Data, Tools, and Maps | Geospatial Data Science | NREL This hydrogen data estimates the potential for producing hydrogen from onshore wind, solar photovoltaic, and biomass energy by county for the United States. The zipped shapefile data The Hydrogen Hubs Selection Sets Off the Dawn of U.S. Hydrogen The much-awaited announcement of first round of winners for the Regional Clean Hydrogen Hubs (H2Hubs) came on October 13, . The H2Hubs are part of a \$8 billion Regional Clean Hydrogen Hubs The Regional Clean Hydrogen Hubs (H2Hubs) Program invests in hydrogen hubs across America to create a national network of hydrogen producers, consumers, and connective infrastructure Biden's hydrogen hubs will get \$7 billion: California, Houston, more President Joe Biden and Secretary of the U.S. Department of Energy Jennifer Granholm will on Friday announce seven regional "hydrogen hubs" which are, collectively, CATF U.S. Hydrogen Hubs Map This interactive map identifies stakeholders and regions that have responded to the DOE funding notice for its Regional Clean Hydrogen Hubs program.
