

The Freen-BSH and Freen-BSL products are developed and produced in Estonia. The high-voltage BSH model and the low-voltage BSL system are both versatile, scalable solutions tailored to meet the energy needs of homeowners, farmers, and a range of commercial and industrial users. Eesti Energia opens the largest battery storage in Estonian energy company Eesti Energia opened the Baltic's largest battery storage at the Auvere industrial complex. This state-of-the-art storage system is already enhancing the stability of the regional electricity grid and Estonia inaugurates its largest battery energy storage project. The project was delivered by energy solutions system integrator Diotech Group, which won Eesti Energia's international tender in 2022. It was supplied with battery technology from LG Energy Solution. Estonian Company Freen Started to Deliver its Sodium-Ion Battery Energy Storage Solution The Freen-BSH and Freen-BSL products are developed and produced in Estonia. The high-voltage BSH model and the low-voltage BSL system are both versatile, scalable solutions. Groundbreaking for 400MWh BESS in Estonia Baltic Storage Platform, a joint venture (JV), has broken ground on two new 200MW/400MWh battery energy storage systems (BESS) in Estonia. Baltic JV nets EUR 85.6m for two battery projects. The Baltic Storage Platform (BSP) has secured EUR 85.6 million (USD 99.6m) from a group of European financial institutions to support the Hertz 1 and Hertz 2 battery energy storage system (BESS) projects in Estonia. Baltic Storage Platform secures EUR85.6mn for large-scale battery storage. Baltic Storage Platform secures a record EUR85.6mn (\$90.6mn) to develop two battery energy storage sites in Estonia, marking the first such financing in the Baltics based solely on private capital. Eesti Energia Unveils Estonia's Largest Battery Storage System Estonia's state-owned energy company, Eesti Energia, has officially launched the country's largest battery energy storage system at the Auvere industrial complex in Ida-Viru County. Estonian Manufacturer Enters \$270 Million Sodium-Ion Battery Market Freen's Estonian manufacturing base provides European Union market access without import duties while maintaining relatively low labor costs compared to Western European production. Gallery: Estonia's largest battery storage facility opened at Auvere This Wednesday, Eesti Energia opened Estonia's largest battery storage facility at the Auvere industrial complex in Ida-Viru County. The new system will boost the stability of the regional electricity grid. Estonian Company Freen Started to Deliver its Sodium-Ion Battery Energy Storage Solution introduces the 7.5 kWh and 10 kWh Sodium Battery Pack with integrated Battery Management System (BMS) to deliver a consistent and reliable energy storage solution. Eesti Energia opens the largest battery storage in Estonia Estonian energy company Eesti Energia opened the Baltic's largest battery storage at the Auvere industrial complex. This state-of-the-art storage system is already enhancing the stability of the regional electricity grid and Estonia inaugurates its largest battery energy storage project.
