

## Four energy storage power stations in Ukraine

^ &quot;?????? ? ??????????? ?????????? ??????? ??????????????? ???? - ??? ? ?  
????????????????????? ??????&quot;; [The fourth unit of the Dniester PSPS has been put into  
operation - a key to the country's energy stability] (in Ukrainian). The following page lists power  
stations in Ukraine. The largest nuclear power plant in Europe. Under Russian occupation.  
Currently deactivated. ~75% complete. Work stopped ~. Building foundation & floor laid. Work  
stopped ~. Remains unfinished. Commenced . Unit 1 80% complete and Unit 2 The national grid  
now operates at just 10GW capacity against peak winter demand of 16GW - a deficit equivalent to  
powering 6 million households simultaneously [9]. This isn't merely about keeping lights on; it's  
about maintaining hospital operations, water purification systems, and military defense The war in  
Ukraine has caused extensive damage to the country's energy infrastructure--over USD 9 billion as  
of --leaving millions of people exposed to daily blackouts, with winter outages averaging five  
hours a day. The crisis has exposed the vulnerability of centralized energy systems: DTEK,  
Ukraine's largest private energy company, has selected Fluence Energy B.V., a subsidiary of  
Fluence Energy, Inc. (NASDAQ: FLNC) ("Fluence"), a global market leader delivering intelligent  
energy storage, operational services, and asset optimization software, to supply Ukraine's first  
Russia has stepped up its bombardment of Ukraine's energy infrastructure. Here is a detailed and  
interactive map of the country's power stations. Ukraine's power supplies are being targeted by the  
Russian army, leaving much of the country with no heating throughout a cold winter. (Photo by Ed

Strategic Response With conventional power plants becoming strategic liabilities, distributed  
energy storage systems paired with solar offer both resilience and rapid deployment advantages.  
Integrated Energy Systems in Ukraine The war in Ukraine has caused extensive damage to the  
country's energy infrastructure--over USD 9 billion as of --leaving millions of people exposed to  
daily DTEK selects Fluence to deliver 200 MW advanced energy The EUR140 million total  
investment aims to enhance power grid stability, bolstering Ukraine's energy security and  
independence. The project is split between six energy storage A map of Ukraine's power stations  
and energy gridRussia has stepped up its bombardment of Ukraine's energy infrastructure. Here is  
a detailed map of the country's power stations. Ukraine needs 1.3 GW of energy storage to  
stabilize power grid Ukraine's power grid requires about 1.3 gigawatts (GW) of energy storage  
capacity to ensure system stability, Ukrenergo CEO Vitalii Zaichenko said, according to  
Ukrinform. Ukraine's largest battery energy storage project Each site has a capacity between 20  
and 50 megawatts, with almost seven hundred Fluence Gridstack battery units installed  
collectively. According to DTEK, the project can store 400 megawatt-hours of UKRAINE
