

## Grenada solar Panel Project

---

Supported by the Government of Grenada and the Grenada Electricity Services Ltd. (Grenlec), this transformative initiative aims to strengthen energy independence across Grenada, Carriacou, and Petite Martinique. The Public Utilities Regulatory Commission (PURC) and the Rocky Mountain Institute (RMI) have entered a landmark partnership aiding the advancement of Grenada's sustainable energy goals. Supported by the Government of Grenada and the Grenada Electricity Services Ltd. (Grenlec), this transformative Beryl is significant as the first hurricane of the season and the earliest Category 5 hurricane on record due to the effects of climate change. Grenada: In the wake of the devastation caused by Hurricane Beryl throughout the Caribbean, Grenada's sister island, Carriacou, is grieving over the Grenlec is committed to diversifying Grenada's energy portfolio while providing safe, reliable, high quality, affordable electric service for everyone. Through a thoughtful, prudent approach, our goal is to stabilise electricity prices in the short-term, and potentially lower prices in the future. The island country of Grenada is located in the West Indies, in the Caribbean Sea. It is the southernmost island of the Windward Islands, and is about 160 kilometres (99 miles) north of Venezuela. Grenada consists of the island of Grenada itself, two smaller islands, Carriacou and Petite We aim to empower Grenadians to move from energy derived from burning of destructive fossil fuels to renewable energy from sunlight. Start Saving Today! Reduced your monthly electricity bill. Free personalised consultation for each client. Hybrid Systems available with or without batteries. Join the energy independence movement by making your home fully self-sustainable with a solar power installation, and free yourself from rising energy costs with the help of hybrid inverters! Why Choose Lightwork Power? What sets Lightwork Power Ltd.'s solar power installation apart from others in Grenada's Quest for 100% Renewable Energy by Supported by the Government of Grenada and the Grenada Electricity Services Ltd. (Grenlec), this transformative initiative aims to strengthen energy independence across Grenada, Carriacou, and Petite Grenada's 1st utility-scale solar project destroyed Minister for Climate Resilience, Environment, and Renewable Energy Kerryne Z James called it profoundly 'disappointing' to witness the significant destruction. She reiterated Grenada's Renewable Energy Options - GRENLECThe chart below describes and reviews some of the current renewable energy options we have investigated, along with their advantages and disadvantages for Grenada. PURC Hosts Key Engagement for Phase Three of the GrenadaThe event took place at the Grenada Airport Authority's Training Room on Tuesday 3rd June , bringing together project stakeholders including Minister with Responsibility for Grenada seeks bidders for a 15.1 MWp solar The country's energy landscape is currently dominated by fossil fuels, but this new project is expected to increase renewable energy capacity and reduce electricity generation costs through large-scale solar Off grid solar power in Grenada and the GrenadinesIn addition to utility-scale projects, there is also a growing market for rooftop solar in Grenada. A number of businesses and homeowners have installed solar panels on their rooftops to reduce their electricity bills and reliance Grenada Solar Company | For Residential and Installing a solar energy system on your home or building has never been easier. Call or email Power Shift and we will explain
