

Hungary behind-the-meter energy storage system

MET Group, a Switzerland-based European energy company, has inaugurated Hungary's largest standalone battery energy storage system (BESS) at the Dunamenti Power Station in Székesfehérvár. The facility features a nominal power output of 40 MW and a storage capacity of 80 MWh, enabling a 2-hour cycle. This is the latest example in a series of Met Duna Energia, a unit of the MET Group, an energy company based in Switzerland with Hungarian roots, which has inaugurated a 40 MW / 80 MWh battery storage at the Dunamenti Power Plant in Székesfehérvár (South of Budapest). Operation has started at the storage system. The investment is supported by Hungary and has taken a significant step forward in its energy transition with the inauguration of its largest standalone battery energy storage system (BESS). Located near Budapest at the Dunamenti Power Station in Székesfehérvár, the 40 MW / 80 MWh facility marks a crucial development in Hungary's energy transition. MET Group, a Switzerland-based European energy company, has inaugurated Hungary's largest standalone battery energy storage system (BESS) at the Dunamenti Power Station in Székesfehérvár. The facility features a nominal power output of 40 MW and a storage capacity of 80 MWh, enabling a 2-hour cycle. This is the largest stand-alone electricity storage system in Hungary's history. The new installation, located at the Dunamenti power plant in Székesfehérvár near Budapest, has a rated power output of 40 MW and an energy storage capacity of 80 MWh. The MET Group has switched on Hungary's largest battery, a 40 MW/80 MWh system, at the site of a power station near Budapest. From ESS News Swiss-based energy company MET Group has officially inaugurated Hungary's largest standalone battery energy storage system (BESS) at its Dunamenti Power Station in Székesfehérvár. MET Group inaugurates Hungary's largest battery. Hungary's largest operating standalone battery energy storage system (BESS) has been inaugurated today: MET Group put into operation a battery electricity storage plant with total nominal power output of 40 MW. MET Group inaugurates Hungary's biggest battery Met Duna Energia, a unit of the MET Group, an energy company based in Switzerland with Hungarian roots, has inaugurated a 40 MW / 80 MWh battery storage at the Dunamenti Power Plant in Székesfehérvár. Hungary Activates Largest Battery System Near Budapest. Hungary has taken a significant step forward in its energy transition with the inauguration of its largest standalone battery energy storage system (BESS). MET Group Unveils Hungary's Largest Battery Storage Plant. MET Group has launched Hungary's largest battery energy storage system at the Dunamenti Power Station, a 40 MW / 80 MWh plant supporting national energy transition goals. The largest energy storage system in Hungary has been launched. Swiss energy company MET Group has inaugurated the largest stand-alone electricity storage system in Hungary's history. The new installation, located at the Dunamenti Power Station in Székesfehérvár, has just switched on its largest battery energy storage system (BESS) to date, stepping up its role in Central Europe's growing grid-scale
