

## Italian Energy Storage Battery Container Project

---

A decree issued on August 7, , authorizes a 120 MW battery energy storage system (BESS) developed by BESS Sessa Aurunca S.r.l. The facility will be built on agricultural land in Sessa Aurunca, near Caserta, and will feature 392 battery containers and 49 power Winning participants of the tender will receive fixed revenues over a 15-year contract for capacity made available to the grid. Italy broke new ground in energy storage with its very first battery storage auction, competitively awarding the full 10 gigawatt hours (GWh) of capacity put up for Italy's environment and energy ministry has approved six utility-scale battery storage projects in Lazio, Campania, Basilicata and Puglia. From ESS News A decree issued on Aug. 7, , authorized a 120 MW battery energy storage system (BESS) developed by BESS Sessa Aurunca S.r.l. The facility will Between August 7 and 11, , Italy's Ministry of Environment and Energy Security (MASE) gave the green light to six large-scale battery storage projects located in Lazio, Campania, Basilicata, and Puglia. A decree issued on August 7, , authorizes a 120 MW battery energy storage system (BESS) Zurich, 30 June - Galileo, the pan-European renewable energy development and investment platform, has completed the sale of a fully authorized 98 MW battery energy storage project located in Southern Italy to an international Independent Power Producer (IPP) with a growing presence in Italy. Italy has taken a major step forward in its energy transition efforts, giving the green light to 361 MW of new battery energy storage systems (BESS) spread across three regions--Lazio, Puglia, and Sardinia. This move underscores the country's growing commitment to grid resilience, energy The Vicari BESS, supplied on a turnkey EPC basis, integrates advanced storage technologies with two of ERG's onshore wind farms, strengthening Sicily's role in Italy's energy transition VICARI, Italy-- (BUSINESS WIRE)-- NHOA Energy, a global provider of utility-scale energy storage systems GreenVolt Lands 499 MWh BESS Project as Enel Dominates Italy broke new ground in energy storage with its very first battery storage auction, competitively awarding the full 10 gigawatt hours (GWh) of capacity put up for tender. One Italy approves 648 MW of new battery projectsItaly's environment and energy ministry has approved six utility-scale battery storage projects in Lazio, Campania, Basilicata and Puglia. ContourGlobal acquires energy storage projects in The more advanced tranche includes three projects (totaling 260 MW) in Southern Italy that are in an advanced permitting phase and eligible for the first MACSE auction in September, also featuring battery Italy approves 648 MW of new battery projects in Between August 7 and 11, , Italy's Ministry of Environment and Energy Security (MASE) gave the green light to six large-scale battery storage projects located in Lazio, Campania, Basilicata, and Puglia. Galileo sells fully permitted battery storage project in Italy to Zurich, 30 June - Galileo, the pan-European renewable energy development and investment platform, has completed the sale of a fully authorized 98 MW battery energy Italy Approves 361 MW of Battery Energy Storage Italy has taken a major step forward in its energy transition efforts, giving the green light to 361 MW of new battery energy storage systems (BESS) spread across three regions--Lazio, Puglia, and Sardinia. NHOA Energy Commissions a 50 MWh Energy Storage System The Vicari BESS project is part of a broader national and European momentum

## Italian Energy Storage Battery Container Project
