

Latvia solar Power Storage Project

Niam and Evecon launched the Latvia-focused platform as joint venturers in June , targeting 84 MWp of solar and 26 MW of battery storage capacity. Construction of the initial group of projects, totalling 39.4 MW, is about to be finalised. Niam Infrastructure and Evecon have formed a partnership for the construction of up to 84 MWp of solar power and 26 MW of energy storage across 11 project sites in Latvia. This collaboration represents a substantial investment in the region's renewable energy sector, highlighting the strong growth European renewable energy provider SUNOTEC has completed the purchase of SIA DSE Lazas Solar's solar and energy storage project in Latvia from Danish Sun Energy. This acquisition will pave the way for the construction of a new photovoltaic (PV) solar power plant with a capacity of 400 megawatts Sweden-based real assets investor Niam and Estonian clean energy developer Evecon have launched the second phase of their joint renewables platform in Latvia, kicking off construction of four new solar and energy storage projects totalling 36.3 MW. The expansion brings the platform's total capacity Hydroelectric power is the main source of renewable electricity in Latvia, followed by solar, wind and biomass cogeneration plants. In , solar power in Latvia grew over 3.1 times to 6.7% of total electricity, becoming the third-largest source, while wind reached a record 38 GWh and hydropower SUNOTEC, one of Europe's leading renewable energy development and construction companies, has acquired 100% of the share capital in SIA DSE Lazas Solar from Danish greenfield developer Danish Sun Energy ApS to build a new PV solar power plant with a total capacity of 400 MWp (megawatts DC) with a European Energy recycles capital through the sale of a 111 MW solar and storage project to an institutional investor. European Energy sells 50% of its 111 MW Saldus solar and battery project in Latvia to Sampension, one of Denmark's largest pension funds. The project combines a 65 MW solar PV plant Niam Infrastructure and Evecon partner up for 110 Niam Infrastructure and Evecon have formed a partnership for the construction of up to 84 MWp of solar power and 26 MW of energy storage across 11 project sites in Latvia. SUNOTEC acquires 400MWp solar, 600MWh European renewable energy provider SUNOTEC has completed the purchase of SIA DSE Lazas Solar's solar and energy storage project in Latvia from Danish Sun Energy. Niam, Evecon begin 36.3-MW phase of Latvian Sweden-based real assets investor Niam and Estonian clean energy developer Evecon have launched the second phase of their joint renewables platform in Latvia, kicking off construction of four new solar Latvia's path to energy transition: Expanding In the same year AJ Power invested over EUR6 million to deploy battery energy storage systems at its solar power plants in Valmiera, Aizkraukle, and Ilukste, enhancing grid stability and renewable integration. Danish Sun Energy sells large-scale co-located After having completed the first divestiture of a 265 MWp PV solar plant with Latvian state-owned utility Latvenergo in Nov , we have now completed the second utility-scale project at Ready-to-Build stage on European Energy divests combined solar and battery park in European Energy sells 50% of its 111 MW Saldus solar and battery project in Latvia to Sampension, one of Denmark's largest pension funds. The project combines a 65 Niam, Evecon launch 110 MW Latvian solar storage initiativeSweden- based Niam Infrastructure and Evecon have joined forces

Latvia solar Power Storage Project

to develop up to 110 MW of renewable energy projects in Latvia, including 84 MW of solar power and 26 MW SUNOTEC's 400MW Solar & 600MWh BESS Project SUNOTEC builds massive solar and battery storage project in Latvia, boosting renewable energy, energy independence, and economic growth. A game-changer for Latvia's energy future. ROUNDUP: BESS projects in Sweden, Denmark Investment firm Niam Infrastructure and developer Evecon will together deploy a solar-and-storage portfolio in Latvia that could have up to 26MW of BESS capacity. Niam Infrastructure and Evecon partner up for 110 MW of solar & storage Niam Infrastructure and Evecon have formed a partnership for the construction of up to 84 MWp of solar power and 26 MW of energy storage across 11 project sites in Latvia.
