

Who is supplying Bess power in Lithuania? Lithuanian utility Ignitis Group has announced plans to develop 291 MW/582 MWh of BESS capacity at three of its clean energy sites and said the equipment will be supplied by Germany-based Rolls Royce Solutions GmbH. How much state-aid for Bess projects in Lithuania? Considering the EUR 102 million state-aid fund for BESS projects in Lithuania and the 500 MWh cap per entity and its related undertakings, the aforementioned subsidiaries of the Group have submitted applications for state-aid for Kelme and Kruonis projects. Will ignitis install a battery energy storage system in Vilnius? Vilnius-based utility Ignitis Group will install 291 MW/582 MWh of total battery energy storage system (BESS) capacity at two of its wind farms and at a hydro site, with commercial operation expected in . Who will provide the equipment and integration services for Bess projects? The German company Rolls-Royce Solutions GmbH will provide the equipment and the integration services for all three BESS projects. Two projects in Kelme (147 MW power; 294 MWh storage capacity) and Mazeikiai (45 MW power; 90 MWh storage capacity) districts are located next to wind farms operated by Ignitis Renewables. Why are battery energy storage systems important in Lithuania? "Power generation from renewables is growing in Lithuania, which makes battery energy storage systems an important guarantee of [grid] reliability," said Ignitis Group CEO Darius Maikstenas. Where will Bess be installed? Announcing a EUR130 million (\$153 million) investment into the three sites on Tuesday, Ignitis said BESS would be installed at wind farms it operates in Kelme and Mazeikiai and next to the Kruonis Pumped Storage Hydroelectric Power Plant, which is also operated by an Ignitis company. Lithuania: Ignitis Group invests EUR130 million in The company is active in the Baltic states of Lithuania, Latvia and Estonia as well as Poland and Finland. According to the company's - Strategic Plan published in May, its installed 'green capacities' stand at 1.4GW with Ignitis Group made final investment decisions on 291 MW BESS can store energy when it is abundant and use it when it is needed the most. They help ensure the network stability even during fluctuations in the solar or wind generation. Ignitis Renewables Ignitis Group, a renewables-focused integrated utility, is starting the construction of battery energy storage systems (BESS) in Lithuania. Battery energy storage parks will be installed around Kelme, Mazeikiai and Kruonis. Lithuania's Ignitis Group to add 582 MWh of Lithuanian utility Ignitis Group has announced plans to develop 291 MW/582 MWh of BESS capacity at three of its clean energy sites and said the equipment will be supplied by Germany-based Rolls Royce Solutions GmbH. Ignitis to build utility-scale BESS in Lithuania Ignitis Group has started construction of a utility-scale BESS in Lithuania, with installations planned across Kelme, Mazeikiai and Kruonis. Ignitis Group made final investment decisions on 291 MW BESS The latest company information, including net asset values, performance, holding & sectors weighting, changes in voting rights, and directors and dealings. Ignitis Group with Ambitious Investment Initiative in Battery Ignitis Group, an integrated utility focused on renewable energy, is expected to start construction of battery energy storage systems (BESS) in Lithuania soon. The company will implement BESS systems: Lithuania's battery boost for the energy transition This intelligent control system not only manages

the three battery parks, but also the connected wind farms. Close integration is crucial, as this is the only way to keep the system running

First BESS Project in First Lithuanian Sale We are pleased to announce our first sale in Lithuania with the successful divestment of the Kaisiadorys battery energy storage system (BESS) project. The 50 MW / 100 MWh (2-hour Ignitis Group made final investment decisions on 291 MW BESS Two projects in Kelme (147 MW power; 294 MWh storage capacity) and Mazeikiai (45 MW power; 90 MWh storage capacity) districts are located next to wind farms operated by Ignitis Lithuania: Ignitis Group invests EUR130 million in BESS portfolio The company is active in the Baltic states of Lithuania, Latvia and Estonia as well as Poland and Finland.
