

## Luxembourg Lithium Battery Company

---

Will Luxembourg Future Fund 2 invest in Lyten? Luxembourg Future Fund 2 has made an equity investment in Lyten, a Silicon Valley-based clean tech company. The investment in Lyten, the world leader in Lithium-Sulfur battery technology, will support the development of locally sourced, locally manufactured batteries in Europe for the Electric Vehicle (EV), mobility, space and defense industries. Does Lyten make lithium-sulfur batteries? Lyten is a manufacturer of 3D graphene supermaterials used in various applications, including lithium-sulfur batteries. The company plans to begin supplying lithium-sulfur batteries and other products to commercial customers from its San Jose, California, facility in early . It is pursuing expansion plans actively in both the U.S. and Europe. Why did Lyten invest in Luxembourg? The investment in Lyten follows the signing of a Memorandum of Understanding (MOU) in October to establish Lyten's European headquarters in Luxembourg. The investment highlights Luxembourg's commitment to advancing clean technologies and incorporating them into the European economy. Is Lyten establishing research and development capabilities in Luxembourg? The company is currently exploring the possibility of establishing research and development capabilities in Luxembourg. Lyten recently announced a Series B financing round in which several strategic Fortune 500 investors, including Stellantis, FedEx and Honeywell, invested \$200 million. What is the Luxembourg Future Fund successor? The Luxembourg Future Fund Successor, launched in by SNCI together with the European Investment Fund (EIF), has invested approximatively \$15.7 million into Lyten. What is Lyten battery chemistry? Lyten is the world leader in Lithium-Sulfur, a battery chemistry on track to deliver more than two times the energy density of lithium-ion batteries and remove critical minerals like nickel, cobalt, manganese, and graphite. PRESS RELEASE: Luxembourg Future Fund 2, a The investment in Lyten, the world leader in Lithium-Sulfur battery technology, will support the development of locally sourced, locally manufactured batteries in Europe for the Electric Vehicle (EV), mobility, Luxembourg Future Fund 2 invests in LytenThe Californian lithium-sulphur battery developer Lyten, which is backed by Stellantis, has received financial support from Luxembourg Future Fund 2. The company also announced that it has established its Lyten, Pioneer of 3D Graphene Materials and the Lyten, from its facilities in San Jose, California, plans to deliver both Lithium-Sulfur batteries and lightweighted composite solutions to commercial customers by early and is actively Exclusive: Luxembourg backs battery firm LytenGraphene and battery maker Lyten has raised \$15.7 million from the Luxembourg Future Fund 2, the company tells Axios. Why it matters: The European country has been backing companies that can Lyten Establish European Headquarters in U.S.-based battery producer and materials specialist Lyten has announced that it has selected Luxembourg as the location for its European headquarters. Lyten is a manufacturer of 3D graphene supermaterials Luxembourg Future Fund 2 invests EUR15m in US Lyten, the American startup which announced last year that it was setting up its European headquarters in Luxembourg, will take advantage of the investment to continue its research and validate its proof of concept and Luxembourg start-up aims to recycle 3bn batteries by Founded in , Circu Li-ion makes it possible to extend the life of batteries by
