

Manufacturers specializing in the production of lithium battery cabinets

Get your battery charging cabinets from the leading fabricator in the Pacific Northwest and Western Canada. Depend on Wesgar to eliminate supply chain delays and deliver quality cabinets--from small to extra-large. Our cabinets are safe, weather and fire-resistant, and designed for indoor and outdoor use. Custom manufacturer of sheet metal cabinets for electronics components, energy storage systems, and testing equipment. Capabilities include 5-axis CNC machining, laser cutting, bending, press brake forming, and stamping. Punching, riveting, tapping, and 3D printing services are offered. MIG, TIG, and DENIOS presents its Energy Storage Cabinet specifically crafted for Lithium-Ion batteries, ensuring secure containment and charging. These meticulously designed lithium-ion battery storage containers guarantee comprehensive safeguarding, including 90-minute fire resistance against external sources. Eterna has extensive experience in fabricating high-quality, fully waterproof, IP 68-rated cabinets for the Lithium-ion Battery market. Customers often incorporate intricate profiles which are unusual for metal yet are achieved with precision through careful thought during the design phase. Eterna's The Americase Lithium-Ion Battery Storage Cabinet provides safe, scalable, and compliant storage for lithium-ion batteries in data center environments. Designed to exceed IFC24 fire-containment standards, it enables secure storage of bulk, damaged, or prototype batteries without the need for a Labtron Lithium Ion Battery Storage Cabinets. These cabinets are engineered for secure storage and controlled battery charging environments. These cabinets feature self-closing, oil-damped doors and triple hinges for maximum structural endurance. They are constructed with a powder-coated steel body and integrated.
