

## New energy companies deploy energy storage

---

Energy storage is essential to a resilient grid and clean energy system. Learn about the types of energy storage, available incentives, and more. ENERGY STORAGE DEPLOYMENT | The Clean FightWe are excited to welcome our latest cohort of companies with groundbreaking battery and energy storage solutions that make clean power simple to deploy, optimize, and leverage 10 Energy Storage Companies to Know in These technologies underpin the transition to a low-carbon future by ensuring grid reliability, maximizing renewable energy use, and enhancing energy security. Below, we spotlight 10 Energy Storage Program Energy storage is essential to a resilient grid and clean energy system. Learn about the types of energy storage, available incentives, and more. ENERGY STORAGE DEPLOYMENT | The Clean FightWe are excited to welcome our latest cohort of companies with groundbreaking battery and energy storage solutions that make clean power simple to deploy, optimize, and 10 Energy Storage Companies to Know in These technologies underpin the transition to a low-carbon future by ensuring grid reliability, maximizing renewable energy use, and enhancing energy security. Below, we Scale Microgrids and Dispatch Energy distributed storage Scale Microgrids and Dispatch Energy, two US commercial and industrial (C& I) distributed generation and storage providers, have secured new capital for growth through Orsted and Newlab Launch Future Energy Storage Studio to The Studio is also proactively expanding our network of industry participants, including power utilities, tech companies, energy-intensive sectors, and cross-sector Energy Storage Leaders: Companies Accelerating Grid The demand for reliable energy storage continues to climb as the US accelerates its transition towards clean, decentralized power. Startups are responding with new chemistries, smarter NextEra Energy and Google Announce New Collaboration to NextEra Energy also owns one of the largest energy infrastructure development companies in the U.S., NextEra Energy Resources, LLC. NextEra Energy and its affiliated &#216;rsted and Newlab Announce the 5 Initial Startups That Will Pilot &#216;rsted, a leading global clean energy company, and Newlab, a deep tech innovation hub, announced a new partnership to launch the Future Energy Storage Program that will engage State by State: An Updated Roadmap Through the Current US Energy Washington has provided \$14.3 million through its Clean Energy Fund to utilities to deploy four utility-scale energy storage projects with the intention of testing different energy NYCEDC Advances Green Economy Action Plan with Support of The facility will serve as a large-scale battery energy storage system capable of charging from, and discharging into, the New York power grid. When fully functional, the Energy Storage Program Energy storage is essential to a resilient grid and clean energy system. Learn about the types of energy storage, available incentives, and more. NYCEDC Advances Green Economy Action Plan with Support of The facility will serve as a large-scale battery energy storage system capable of charging from, and discharging into, the New York power grid. When fully functional, the
