

You know how people say renewable energy is unreliable? Well, North Macedonia's Skopje Pumped Storage Power Station just proved them wrong. Operational since Q2 , this EUR1.2 billion marvel can power 800,000 homes for 8 hours straight while stabilizing the Balkan grid. That's exactly what North Macedonia is aiming for with the Skopje Energy Storage Power Station, a grid-scale battery project that's turning heads across the Balkans. But here's the kicker--this isn't just another energy project. It's a \$220 million bet on making renewables as reliable as your Power utility Elektrani na Severna Makedonija estimated that it requires EUR 3 billion by to replace electricity from its lignite-fired power plants. According to member of the Board of Directors Ivan Stojanovski, the state-owned company is preparing investments in gas power plants, solar You know how people say renewable energy is unreliable? Well, North Macedonia's Skopje Pumped Storage Power Station just proved them wrong. Operational since Q2 , this EUR1.2 billion marvel can power 800,000 homes for 8 hours straight while stabilizing the Balkan grid. But here's the kicker - It is the first utility-scale energy storage project in Egypt, defining a new era for clean energy deployment in North Africa. Developed by AMEA Power and constructed by Energy China ZTPC, the 300MWh energy storage facility is a vital expansion of the existing 500MW Abydos solar power plant. The YESS Power's Strong Contribution to the Western Balkans' Largest Solar Storage Project Under the investment of Mey Energy, YESS Power -- in collaboration with China-based Cubenergy -- is building a 60 MW energy storage system in North Macedonia. At YESS Power, we are proud to announce our first major A city where sudden power outages become as rare as unicorn sightings, and solar panels work overtime even after sunset. That's the promise of the Skopje Energy Storage Project - North Macedonia's answer to the \$33 billion global energy storage industry [1]. Designed for tech-savvy policymakers and North Macedonia issues first big battery licenses, as 60 MW China-based Cubenergy will provide the energy storage systems while YESS Power will manage all engineering, procurement, installation, and commissioning phases. This Skopje Energy Storage Power Station: Powering North That's exactly what North Macedonia is aiming for with the Skopje Energy Storage Power Station, a grid-scale battery project that's turning heads across the Balkans. North Macedonia's ESM needs investments of EUR 3 billion to Power utility Elektrani na Severna Makedonija estimated that it requires EUR 3 billion by to replace electricity from its lignite-fired power plants. According to member of the Skopje Pumped Storage Power Station: The Linchpin of Balkan's You know how people say renewable energy is unreliable? Well, North Macedonia's Skopje Pumped Storage Power Station just proved them wrong. Operational since Q2 , this EUR1.2 THE SKOPJE ENERGY STORAGE PROJECT POWERING North Africa Energy Storage Power Station Project It is the first utility-scale energy storage project in Egypt, defining a new era for clean energy deployment in North Africa. Developed by AMEA 60 MW Energy Storage: YESS Power's Landmark Project in This project, implemented in North Macedonia, is not only a technical achievement but also a milestone redefining the region's energy future. Our project integrates a 60 MW battery energy North Macedonia's energy storage landscape is This is a

significant development for renewable energy projects, facilitating the integration of storage solutions to optimize energy production and dispatch, by also contributing to grid The Skopje Energy Storage Project: Powering North Macedonia's A city where sudden power outages become as rare as unicorn sightings, and solar panels work overtime even after sunset. That's the promise of the Skopje Energy Storage Project - North North Macedonia's ESM needs investments of EUR 3 billion to Power utility Elektrani na Severna Makedonija estimated that it requires EUR 3 billion by to replace electricity from its lignite-fired power plants. According to member of the Fortis to install 62 MW storage at PV plant in N.Turkish renewable energy producer Fortis Energy said it has inked a \$19.65 million (18.7 million euro) deal with local energy storage specialist Pomega Energy Storage Technologies for the installation of a North Macedonia issues first big battery licenses, as 60 MW China-based Cubenergy will provide the energy storage systems while YES Power will manage all engineering, procurement, installation, and commissioning phases. This Skopje Energy Storage Power Station: Powering North MacedoniaThat's exactly what North Macedonia is aiming for with the Skopje Energy Storage Power Station, a grid-scale battery project that's turning heads across the Balkans. THE SKOPJE ENERGY STORAGE PROJECT POWERING NORTH MACEDONIANorth Africa Energy Storage Power Station Project It is the first utility-scale energy storage project in Egypt, defining a new era for clean energy deployment in North Africa. Developed by AMEA North Macedonia's energy storage landscape is evolvingThis is a significant development for renewable energy projects, facilitating the integration of storage solutions to optimize energy production and dispatch, by also Fortis to install 62 MW storage at PV plant in N. MacedoniaTurkish renewable energy producer Fortis Energy said it has inked a \$19.65 million (18.7 million euro) deal with local energy storage specialist Pomega Energy Storage North Macedonia issues first big battery licenses, as 60 MW China-based Cubenergy will provide the energy storage systems while YES Power will manage all engineering, procurement, installation, and commissioning phases. This Fortis to install 62 MW storage at PV plant in N. MacedoniaTurkish renewable energy producer Fortis Energy said it has inked a \$19.65 million (18.7 million euro) deal with local energy storage specialist Pomega Energy Storage
