

## Romania New Energy Storage Project

---

Energy storage fever has gripped Romania. More In an accelerated wave of investments, companies in Romania are combining battery energy storage systems (BESS) with solar, hydro or wind energy, or building independent storage facilities. The list Nova Power & Gas confirms investment in the Bucharest, July 22, - Nova Power & Gas, a Romanian energy company and part of the E-INFRA Group, announces the launch of the largest battery energy storage project in Romania. Spotlight on Romania: The 600 MWh battery Leading the development is Nova Power & Gas, part of the Romanian E-Infra Group, which has unveiled plans for the nation's largest battery project to date. The company will build a 400 MWh facility in EBRD considers loan for 127-MW battery project in RomaniaThe European Bank for Reconstruction and Development (EBRD) is considering lending EUR 50 million (USD 58.1m) to support a battery energy storage system (BESS) Romania: Trina Storage to Deliver 65MWh Battery System for Trina Storage is set to supply a 65MWh battery energy storage system (BESS) for a new project in Romania, marking its first deployment in the country. The initiative, located in Nova Power & Gas confirms investment in Nova Power & Gas, a Romanian energy company and part of the E-INFRA group, announces the start of the largest battery storage project in Romania. The facility, to be built in Floresti, Cluj County, will have a Romania, Ministry of Energy, battery energy storage systems, Romania's Ministry of Energy announces &#226;,&#172;150 million funding for standalone battery energy storage systems, aiming to enhance the country's energy infrastructure and Battery storage project pipeline in Romania in rapid R.Power is investing in BESS in Romania, which is one of its strategic markets, together with Poland, where it is headquartered, and Italy, Germany, Spain and Portugal. Battery storage makes up 17.5 GW or Romania's Energy Storage Initiatives: Major Investments and The Romanian government, led by Prime Minister Marcel Ciolacu, has announced a EUR150 million fund for energy storage projects, open for applications until January 17, . This initiative 204MW BESS project planned in Romania with A 204MW battery energy storage system (BESS) project in Romania can progress after the government said it did not need to go through an environmental impact assessment (EIA).Energy storage fever has gripped Romania. More and more large In an accelerated wave of investments, companies in Romania are combining battery energy storage systems (BESS) with solar, hydro or wind energy, or building Nova Power & Gas confirms investment in the largest battery storage Bucharest, July 22, - Nova Power & Gas, a Romanian energy company and part of the E-INFRA Group, announces the launch of the largest battery energy storage project in Romania. Spotlight on Romania: The 600 MWh battery storage boomLeading the development is Nova Power & Gas, part of the Romanian E-Infra Group, which has unveiled plans for the nation's largest battery project to date. The company Nova Power & Gas confirms investment in Romania's largest Nova Power & Gas, a Romanian energy company and part of the E-INFRA group, announces the start of the largest battery storage project in Romania.
