

Saint Lucia Container solar Carport

Multi-carport Solar Charging Station - STEM-SLUC

Construction on the first-of-its-kind solar carport in Saint Lucia is well advanced. The facility, in addition to providing charging for electric vehicles, will also power the headquarters of the Ministry of Infrastructure, Web Portal of the Government of Saint Lucia

The Saint Lucia Air and Sea Ports Authority (SLASPA) is pleased to announce the upcoming Solar PV Carport Project at Hewanorra International Airport (HIA), which marks a significant Solar carport and electric vehicle charging station

Santa Lucia

However, given its geographical location and strong exposure to the sun, St Lucia, like many other small island developing states, may be able to produce large amounts of electricity using

SAINT LUCIA ADVANCES GREEN AGENDA WITH LAUNCH

As a vital part of Saint Lucia's broader energy transformation efforts, the HIA Solar PV Carport Project is designed not just to reduce carbon emissions, but to serve as a model

St. Lucia's largest solar carport launched at main gateway | Smart

This milestone project is home to the largest solar carport in the country -- a 435 kW system delivering clean, renewable energy where it matters most.

St. Lucia Solar PV Carport by Smart Energy*

Led by The Saint Lucia Air and Sea Ports Authority , with support from the Ministry of Infrastructure, Masdar, and Smart Energy, this project demonstrates St. Lucia's bold

Saint Lucia advances green agenda with launch of Solar PV

The state-of-the-art solar carport will not only supply clean, renewable energy directly to HIA, but will also usher in a new era of green mobility with publicly accessible electric

Home

We design, manufacture and install solar parking structures that generate clean, lower cost energy while providing functional and aesthetic shelter from the elements.

Launch of the "Shifting to Electric Mobility" Project - STEM-SLUC

During the event, the feature address by Mr. Jimmy Fletcher highlighted the transformative potential of electric mobility for Saint Lucia. He described the project as an opportunity to build
