

## Samoa base station communication equipment power generation

What telecommunications systems are in Samoa? Telecommunications systems in Samoa include telephone, radio, television and internet. In , the Samoa- American Samoa (SAS) Cable provided inter-island communication, as well as enabling users in Samoa to access the ASH cable capacity and connect to the global networks. Is the government working to resolve Samoa's power supply issue 'bit by bit'? Autagavaia says the government is working to resolve the power supply issue 'bit by bit'. Photo: 123RF Residents on Samoa's main island of Upolu can expect some relief after the arrival of five generators leased from a company in New Zealand on Monday to manage the country's ongoing power crisis. Why is Samoa preparing for the Commonwealth Heads of Government Meeting? The new generators are also timely, as Samoa prepares to host the Commonwealth Heads of Government Meeting (CHOGM) in October. These generators will ensure a reliable power supply for both public use and the high-level meeting, enhancing Samoa's readiness for the event. Olo commended EPC's efforts in providing affordable electricity to the public. How has Samoa responded to the energy crisis? The Government's national response to Samoa's ongoing energy crisis has entered its third week, with new rental generators from Aggreko New Zealand now delivered and being installed at Fuluasou. The EPC confirmed the arrival of the first shipment last week, followed by a second load that landed on Sunday, 13 April. How much does Samoa's power crisis cost? Fiams said the economic impact of the crisis is estimated to cost up to 16 percent of Samoa's Gross Domestic Product (GDP). RNZ Pacific Samoa correspondent Tipi Autagavaia told Pacific Waves that the government was working to resolve the power supply issue 'bit by bit' while the country remains under a state of emergency until 29 April. What is an emergency order in Samoa? An Emergency Order has been issued under the Proclamation of Emergency. It allows temporary exemptions on import duties and taxes for approved energy-related equipment purchased between 17 February and 29 April, as long as the goods arrive in Samoa by 29 June. Applications must go to the Comptroller of Customs with proper documentation. Samoa Enhances Power Reliability With New EPC invested \$10.7 million in acquiring a total of four generators. Three of these new generators are now operational at Fuluasou, while the fourth is servicing Savaii. Each generator has a capacity of Aggreko generators from NZ installed to help with EPC engineers and Aggreko NZ Ltd specialists install hired generators at the Fuluasou substation to help stabilise Samoa's power supply during the national energy crisis. Samoa power crisis: Hope arrives in the form of Autagavaia said two brand-new, permanent generators for the Electric Power Corporation, which have been purchased from China, will be arriving in August. 'The five generators leased from a company in New Samoa: Fiaga Diesel Power Plant The powerplant currently provides baseload power generation and has significantly improved reliability of power generation for EPC's 35,000 residential, commercial, and government Samoa Observer | Power generation is a problem: According to EPC, their Fiaga generators have been experiencing technical difficulties. In a statement released on Saturday, EPC expressed regret over the disruptions, particularly during peak hours, and Integrated power systems help protect isolated Pacific Islands Innovations and ideas produced and
