

## Serbia household lithium battery pack

What is the fight against lithium exploitation in Serbia? The fight against lithium exploitation in Serbia is full of dubious characters but also struggle and solidarity. The protests against the exploitation of lithium - and Rio Tinto - soon moved to Serbia's capital and largest city, Belgrade. Who supports lithium extraction in Serbia? Citizens, environmental activists, and green political parties stand on one side. On the other stands a major company supported by Serbia's ruling parties, as well as certain political forces from within the EU. Polarisation between supporters and opponents of lithium extraction has made genuine debate impossible. Is lithium a political issue in Serbia? In Serbia, lithium has become a divisive topic. Citizens, environmental activists, and green political parties stand on one side. On the other stands a major company supported by Serbia's ruling parties, as well as certain political forces from within the EU. Will Serbia open up its lithium reserves? As part of its accession negotiations with the EU, Serbia is obliged to harmonise its laws with EU legislation. Increased pressure to open up access to the country's lithium reserves is to be expected. At the beginning of 2014, a new mineral with the chemical formula sodium-lithium-borosilicate-hydroxide was discovered in western Serbia. Should lithium be mined in Serbia? Still, if we are to be guided by a development paradigm that envisions a green transition to a low-carbon society, lithium must be mined somewhere. If the ore isn't mined in Serbia, it will be mined in Bolivia, Argentina, or Chile, where local communities will also be affected. How, then, to deal with such challenges? Is lithium a good material for electric car batteries? Lithium is a crucial material for electric car batteries. STEVE INSKEEP, HOST: Think of this as a NIMBY story - Not In My Backyard. In this case, the backyard is in Serbia, and what a company wants to put there is a lithium mine. Electric carmakers around the world need more and more lithium for batteries. Why is Europe desperate for lithium, and why are with green groups set to mass for a protest on the streets of Belgrade this weekend over the planned opening of a Lithium mine, what Serbia-EU lithium deal ignites social thermal runaway EU leaders signed an agreement with Serbia last month, as reported by Batteries International on July 24, in the bloc's latest bid to counter its dependence on Asian dominance Serbs and Bosnians join forces to fight lithium mining Serbia's Jadar Valley and Bosnia's Mount Majeveca have become the frontline of defense in the fight against lithium mining. What started out as resistance in Serbia has now morphed into a Why are people in Serbia protesting plans to dig a giant lithium Thousands filled the streets of the Serbian capital Belgrade on Saturday to protest plans to mine one of Europe's largest deposits of lithium. Sacrificing Serbia for the EU's EV Industry and In the shadow of Europe's green ambitions, Serbia is becoming a quiet casualty. Learn the deeper story of lithium, local lives, and the hidden cost of the EU's electric dreams. Serbia's Lithium: Sacrifice Zones or Opportunity for Similar to the story of Superman, the fight against the planned exploitation of lithium in western Serbia is full of dubious characters and sudden turns but also struggle and solidarity.
