

## Spain's latest energy storage project

---

How will Spain increase its energy storage capacity? Spain has launched an ambitious EUR700 million (around \$796 million) program to increase its energy storage capacity. This plan will add 2.5 to 3.5 gigawatts (GW) of storage. It includes pumped hydro, thermal energy storage, and battery systems. What is Spain's energy storage program? For stakeholders in battery storage, thermal storage, and pumped hydro, this program offers not only financial backing but also long-term stability and political support. Spain has launched a EUR700 million energy storage program to support battery, thermal, and pumped hydro projects, aiming to deploy 2.5-3.5 GW of capacity. Will Spain start a new energy storage scheme? The Ministry of the Environment of Spain has launched its latest financial support scheme for energy storage, aiming to kickstart 2.5-3.5GW. How has Spain strengthened its energy infrastructure? Spain has taken a decisive step in strengthening its energy infrastructure with the launch of a EUR700 million support scheme aimed at expanding large-scale energy storage across the country. How much money will Spain spend on energy projects? Nearly half of the financial support will be allocated to the southern region of Andalusia, with EUR311 million, followed by the northwestern region of Galicia with EUR86 million and the central region of Castilla-La Mancha with EUR80 million. The projects will make the energy system in Spain more flexible, robust, and resilient, MITECO said. Why should Spain invest in energy storage? Investing in energy storage helps Spain meet its climate goals. This includes achieving carbon neutrality by 2050. Storing renewable energy instead of wasting it helps the country rely less on fossil fuels. This also cuts down greenhouse gas emissions. Pumped hydro, thermal storage, and battery systems are effective technologies. Environmental impact report of the Majada Alta BAT battery energy storage module project, with a storage capacity of 123,863 MWh and an installed inverter capacity of 30 MW, for hybridization with the Majada Alta PV photovoltaic park and its evacuation infrastructure, in the province of Caceres, promoted by Iberdrola. Spain provisionally awards EUR839 million to 11 GWh of energy storage Oct 27, &nbsp;&nbsp;Spain's Instituto para la Diversificaci&on y Ahorro de la Energ&aacute;a (IDAE) has issued a provisional funding proposal for the country's first call for innovative energy storage projects, Spain's EUR700 Million Plan to Boost Energy Jun 3, &nbsp;&nbsp;Spain has launched an ambitious EUR700 million (around \$796 million) program to increase its energy storage capacity. This plan will add 2.5 to 3.5 gigawatts (GW) of storage. It includes pumped hydro, thermal storage. Eight storage projects listed in Spain's official gazette for Oct 17, &nbsp;&nbsp;Spain's Official State Gazette (BOE) includes September announcements of eight storage projects - five of them identified as batteries. Six of the projects would have a total capacity of 123,863 MWh and an installed inverter capacity of 30 MW, for hybridization with the Majada Alta PV photovoltaic park and its evacuation infrastructure, in the province of Caceres, promoted by Iberdrola. Spain Launches EUR700 Million Energy Storage Scheme to Jun 3, &nbsp;&nbsp;Spain's Ministry for the Ecological Transition and the Demographic Challenge (MITECO) has announced a major funding initiative worth EUR700 million to boost large-scale energy storage. Spain launches EUR700 million support scheme Jun 2, &nbsp;&nbsp;Spain's Ministry of the Environment has formally launched its latest financial support scheme for energy storage, aiming to kickstart the deployment of 2.5-3.5GW of projects. Spain Energy Storage Program Launches with Jun 3,

Spain has taken a decisive step in strengthening its energy infrastructure with the launch of a EUR700 million support scheme aimed at expanding large-scale energy storage across the country. Energy storage is growing in Spain with 3,400 MW of capacity Oct 17, Spain boosts energy storage with new projects, highlighting batteries, solar hybridization and permits after the April blackout. Top five energy storage projects in Spain Sep 10, &nbsp;&nbsp;&nbsp;Listed below are the five largest energy storage projects by capacity in Spain, according to GlobalData's power database. GlobalData uses proprietary data and analytics to Spain second country in world for stand-alone battery-based Dec 20, &nbsp;&nbsp;Renewable generation is now joined by storage projects, and Spain occupies a prominent place as the country with the second largest projected capacity for stand-alone Spain's EUR700 Million Plan to Boost Energy Jun 3, &nbsp;&nbsp;Spain has launched an ambitious EUR700 million (around \$796 million) program to increase its energy storage capacity. This plan will add 2.5 to 3.5 gigawatts (GW) of storage. It includes pumped hydro, thermal Spain provisionally awards EUR839 million to 11 GWh of energy storage Oct 27, &nbsp;&nbsp;Spain's Instituto para la Diversificaci&#243;n y Ahorro de la Energ&#237;a (IDAE) has issued a provisional funding proposal for the country's first call for innovative energy storage projects, Spain's EUR700 Million Plan to Boost Energy Storage and Jun 3, &nbsp;&nbsp;Spain has launched an ambitious EUR700 million (around \$796 million) program to increase its energy storage capacity. This plan will add 2.5 to 3.5 gigawatts (GW) of storage. It Spain launches EUR700 million support scheme for energy storage Jun 2, &nbsp;&nbsp;Spain's Ministry of the Environment has formally launched its latest financial support scheme for energy storage, aiming to kickstart the deployment of 2.5-3.5GW of projects. Spain Energy Storage Program Launches with EUR700 Million in Jun 3, &nbsp;&nbsp;Spain has taken a decisive step in strengthening its energy infrastructure with the launch of a EUR700 million support scheme aimed at expanding large-scale energy storage Spain's EUR700 Million Plan to Boost Energy Storage and Jun 3, &nbsp;&nbsp;Spain has launched an ambitious EUR700 million (around \$796 million) program to increase its energy storage capacity. This plan will add 2.5 to 3.5 gigawatts (GW) of storage. It Spain provisionally awards EUR839 million to 11 GWh of energy storage Oct 27, &nbsp;&nbsp;Spain's Instituto para la Diversificaci&#243;n y Ahorro de la Energ&#237;a (IDAE) has issued a provisional funding proposal for the country's first call for innovative energy storage projects,
