Running Python scripts in Microsoft Power Automate CloudI use Power Automate to collect responses from a Form and send emails based on the responses. The main objective is to automate decision-making using Python to approve or Power Automate Power BI's lack of admin and monitoring tooling is by far its biggest shortcoming--especially surrounding refresh management. The sooner you realize you will not get out of it Data Source Credentials and Scheduled Refresh greyed out in Data Source Credentials and Scheduled Refresh greyed out in Power BI Service Asked 4 years, 6 months ago Modified 3 years, 2 months ago Viewed 17k times How to solve the network error when using a patch function?You'll need to complete a few actions and gain 15 reputation points before being able to upvote. Upvoting indicates when questions and answers are useful. What's reputation How to use Power Automate flows to manage user access to Manage list item and file permissions with Power Automate flows Grant access to an item or a folder Stop sharing an item or a file As per my knowledge, The Stop sharing an What does the power operator (**) in Python translate into?The power operator has the same semantics as the built-in pow() function, when called with two arguments: it yields its left argument raised to the power of its right argument. Power BI, IF statement with multiple OR and AND statementsPower BI, IF statement with multiple OR and AND statements Asked 6 years, 2 months ago Modified 6 years, 2 months ago Viewed 91k times Reset/Clear selected slicers in Power BI Report I have 6 slicers/filter on a Power BI report page (5 dropdowns and 1 date slicer). There is a clear all slicer button that resets the all dropdowns and date slicer. Is there anyway, Power Automate to automatically refresh Excel and send emails Two part question: (1) Use Power Automate to Automatically have Excel power query tables auto refresh without having to open the excel workbook. (2) Trigger a Power Running Python scripts in Microsoft Power Automate CloudI use Power Automate to collect responses from a Form and send emails based on the responses. The main objective is to automate decision-making using Python to approve or Power Automate to automatically refresh Excel and send emails Two part question: (1) Use Power Automate to Automatically have Excel power query tables auto refresh without having to open the excel workbook.
