

## Tonga Agent Solar Power Generation Home

---

What is a solar farm & how can it help Tonga? Producing energy since August this year, and providing power for up to 10,336 households, the Solar Farm is helping The Government of Tonga pursue its National Energy Roadmap plans to see up to 70% of Tongatapu's electricity generation sourced from renewables by the end of . Who are Sunergise New Zealand & Tonga Power Limited? This solar project was completed under the partnership between Sunergise New Zealand Limited and Tonga Power Limited with support from the Asian Development Bank (ADB). Sunergise led the construction and meanwhile united local Tongan civil, mechanical and electrical sub-contractors to the team. Why do we need solar power in Tonga? Renewables like solar are a significant means for Tonga to expand energy access, stabilize power grids as well as reduce pollution. Considering the shortage of solar expertise and finances for countries like Togan, the role of independent power producers and the practice of PPA provide solid support to smooth the way for solar deployment. Can Australia help secure Tonga's outer island energy needs? Australia also has a long history of engagement in relation to helping secure Tonga's outer island energy needs. In the early 2000s, Australia funded the Ha'apai Outer Islands Electrification project (HOIEP), which involved the installation of diesel-powered generators and electrical reticulation on four islands in the Ha'apai group. What does Sunergise's 6MW solar system mean for Tonga? As Hu'akavameiliku, Prime Minister of Tonga said at the ceremony: "The successful completion of the Sunergise's 6MW Independent Power Producer solar generation system today, demonstrates the major role renewable energy independent power producers play towards achieving our 70% target by [the] end of [the] year ." What is Sunergise Tongatapu solar farm? The Sunergise Tongatapu Solar Farm is the largest in the South Pacific. It was built as part of a power purchase agreement between Sunergise New Zealand Limited, a Todd Corporation solar company and Tonga Power Limited, with support from the Asian Development Bank. Solar power changing lives on Hunga island All 84 households on Hunga Island, including seven female-headed homes, are now connected to a new solar-powered microgrid, marking a significant milestone in Tonga's Clean, Green, Sustainable Power for Tonga | Tonga Power Limited Our main source of renewable energy is currently from solar generation and wind generation, but we are also looking into other renewable energy sources that are reliable and sustainable here Australia's contribution to the multi-donor Tonga Outer OIREP's focus was installation of solar energy capabilities to nine outer islands of Tonga, with the aim of increasing the reliability, efficiency and affordability of power on these islands. Energizing Remote Islands in Tonga with Mini-Grid Solar Objectives: To discuss: The recent installation of solar mini-grid systems on three remote islands in Tonga: Niuafo'ou, O'ua, and Mo'unga'one. And some case studies from Other Pacific Island South Pacific's Largest Solar Farm Launched in Sunergise is the leading developer and operator of solar generation in the Pacific Islands and has delivered over 20MW of solar power implementations in New Zealand, Fiji, Tonga and the South Pacific. ELECTRIFICATION IN TONGA OUTER ISLANDS USING A simple traffic light indicator, or state of charge meter that displayed battery levels, would improve the user's ability to monitor battery health and avoid early
