

## Two energy storage projects in Greece

The Melitis 1 battery energy storage system (BESS) in Meltis will total 48MW/96MWh while the Ptolemaida 4 BESS in the former lignite mines of Ptolemaida will total 50MW/100MWh. Meltis 1 will be in the vicinity of solar PV plants belonging to a separate unnamed company. Greece plans to provide EUR 1 billion in state subsidies to support two solar power projects, with a total capacity of over 800 MW and with integrated energy storage units. The European Commission has given the green light for the subsidies, which will take the form of a two-way contract for These projects, which will enhance the stability of the Greek electricity grid, will have a combined capacity of 813MW. Credit: Wadstock/Shutterstock . The European Commission (EC) has approved EUR1bn (\$1.08bn) in Greek state aid to support the development of two solar-plus-storage projects. These Utility Public Power Corporation (PPC) has launched construction on two BESS projects in Northern Greece totalling 98MW/196MWh of capacity. The Melitis 1 battery energy storage system (BESS) in Meltis will total 48MW/96MWh while the Ptolemaida 4 BESS in the former lignite mines of Ptolemaida will After years of leading southern Europe in solar power expansion, the country is now shifting its focus to energy storage, a critical move to ensure flexibility, grid stability, and continued momentum in renewables deployment. With solar installations growing rapidly, pushing national capacity PPC Group advanced two battery energy storage system (BESS) projects in Western Macedonia, northern Greece. The &quot;Melitis 1&quot; project will have an installed capacity of 48 MW/96 MWh and will be located near future photovoltaic parks developed by the company. The second project, &quot;Ptolemaida 4&quot;, will Greece to subsidize two major solar and storage Greece plans to provide EUR 1 billion in state subsidies to support two solar power projects, with a total capacity of over 800 MW and with integrated energy storage units. Greece to Provide \$1.1B in State Aid for Two Solar The Greek government has received clearance from the European Commission for EUR 1 billion (\$1.1 billion) in state support for Commission approves EUR1 billion Greek State aid measures to The European Commission has approved, under EU State aid rules, EUR1 billion Greek measures to support two projects for the generation and storage of renewable energy in Greece. EC approves EUR1bn Greek aid for two solar-plus The European Commission (EC) has approved EUR1bn (\$1.08bn) in Greek state aid to support the development of two solar-plus-storage projects. These projects, which will enhance the stability of the Greek PPC starts building capex support-winning BESS Public Power Corporation (PPC) has launched construction on two BESS projects in Northern Greece totalling 98MW/196MWh of capacity. EU clears Greek aid for 813 MW of PV with storageThe European Commission has approved EUR1 billion (\$1.08 billion) of Greek measures under EU state-aid rules to support two utility-scale solar projects with lithium-ion batteries and Greece's Energy Storage Era: A market awakensGreece's approach to storage development is shaping up along two parallel paths: regulated tenders and subsidy-free merchant deployments. In recent years, the government has run PPC develops battery storage projects in Greece PPC Group advanced two battery energy storage system (BESS) projects in Western Macedonia, northern Greece. The &quot;Melitis 1&quot; project will have an installed capacity of

## Two energy storage projects in Greece

PPC Group begins construction of new 50 MW storage system in Greece. The two plants, with a total installed capacity of 98MW and a storage capacity of 196MWh, are located in Western Macedonia, in the areas of the Kardia and Meliti thermal power plants. EC approves EUR1 billion solar-plus-storage Greek state aid measure to support two solar-plus-storage projects. Greece to subsidize two major solar and storage projects with Greece plans to provide EUR 1 billion in state subsidies to support two solar power projects, with a total capacity of over 800 MW and with integrated energy storage units. Greece to Provide \$1.1B in State Aid for Two Solar Energy Storage The Greek government has received clearance from the European Commission for EUR 1 billion (\$1.1 billion) in state support for two solar photovoltaic farms with a combined capacity of 813 MW of PV with storage. EC approves EUR1bn Greek aid for two solar-plus-storage projects. The European Commission (EC) has approved EUR1bn (\$1.08bn) in Greek state aid to support the development of two solar-plus-storage projects. These projects, which will be built by PPC, starts building capex support-winning BESS projects in Greece. Public Power Corporation (PPC) has launched construction on two BESS projects in Northern Greece totalling 98MW/196MWh of capacity. EU clears Greek aid for 813 MW of PV with storage. The European Commission has approved EUR1 billion (\$1.08 billion) of Greek measures under EU state-aid rules to support two utility-scale solar projects with lithium-ion storage. PPC Group begins construction of new 50 MW storage system in Greece. The two plants, with a total installed capacity of 98MW and a storage capacity of 196MWh, are located in Western Macedonia, in the areas of the Kardia and Meliti thermal power plants. EC approves EUR1 billion solar-plus-storage Greek state aid. The European Commission has approved a EUR1 billion (US\$1.1 billion) Greek state aid measure to support two solar-plus-storage projects. Greece to subsidize two major solar and storage projects with Greece plans to provide EUR 1 billion in state subsidies to support two solar power projects, with a total capacity of over 800 MW and with integrated energy storage units. EC approves EUR1 billion solar-plus-storage Greek state aid. The European Commission has approved a EUR1 billion (US\$1.1 billion) Greek state aid measure to support two solar-plus-storage projects.
